

South Australian Spastic Paralysis Welfare Association

1948 – 1983

Details

The South Australian Spastic Paralysis Welfare Association was first formed in 1948 to provide assistance to children suffering from Cerebral Palsy. It was formed by the parents of children with disabilities in the Western suburbs of Adelaide and was incorporated in 1950. It purchased property at 98 Woodville Rd Woodville and after successful fundraising opened the Woodville Spastic Children's Home in 1952. In 1954 the Miss Australia Quest was launched with proceeds going to South Australian Spastic Paralysis Welfare Association. The success of the Quest in the 1950s and 60s enabled expansion of the Woodville site. In 1983 the South Australian Spastic Paralysis Welfare Association was renamed Spastic Centres of South Australia or SCOSA.
